Emergency Exit Doors

Steel emergency exit doorsets

Emergency exit doorset, internal side

Push bar to open

Steel Emergency Exit Doorsets

- **Made to bespoke sizes to suit your openings.** There are no standard sizes: every doorset is made to the measured opening.
- Configurations: single, double or leaf-and-a-half.
- Hardware: push bars or push pads to BS EN 1125 or BS EN 179.
- Options: vision and louvre panels; manual or electric locking.
- Applications: retail, commercial, industrial, education and leisure premises.
- Fire rating: emergency exit doors are not fire-rated as standard. Where an exit must also resist fire, a fire door is specified instead (see the MerFen fire doors tech sheet).

Finish and options

- Colours: over 150 RAL and BS colours. Popular choices include RAL 7016 Anthracite Grey, RAL 9005 Jet Black, RAL 9010 White, RAL 9006 White Aluminium, RAL 5002 Ultramarine Blue and RAL 6001 Emerald Green. Final colours are confirmed against a physical sample.
- Hardware: 3-point locking sashcase, push-pad exit lock case, lever furniture for personnel doors and push bar to EN 1125. Options depend on the doorset specified and its certification.
- Access control: card and fob readers, keypads, push-to-exit buttons, maglocks and break glass units, added when the door is fitted.

Survey, installation and aftercare

- Free site survey before any quote, with each opening assessed on site.
- Written specification and quotation.
- Doorsets fitted and handed over, with staff training at handover.
- Maintenance contracts available. MerFen Security is SafeContractor accredited.
