MerFen Security Ltd

Pay Window – Flush Fit

Pay Window
Secure External Payment Window

This Payment Window is designed to transfer goods from the secure to the non-secure side of the wall, without protruding permanently from the external wall surface.

The Payment Window is primarily designed for use within Garage forecourts and 24hr pharmacies, for the passage of prescribed drugs, general pharmacy products and general store products.

It offers staff a secure and safe method of transferring goods to customers whilst still maintaining security.

MerFen Security Ltd

Pay Window – Flush Fit

The unit comprises a flush draw type transfer unit that sits below a physical attack resistant glazed security screen to BSEN356-P4A, which incorporates an audio system and induction loop.

The draw is lockable from the inside when not in use, with a removable cover to close the unit leaving the counter top a clear workable surface.

The window is finished as standard in RAL7016 Grey*

A 13amp socket is required within 1 metre of the unit.

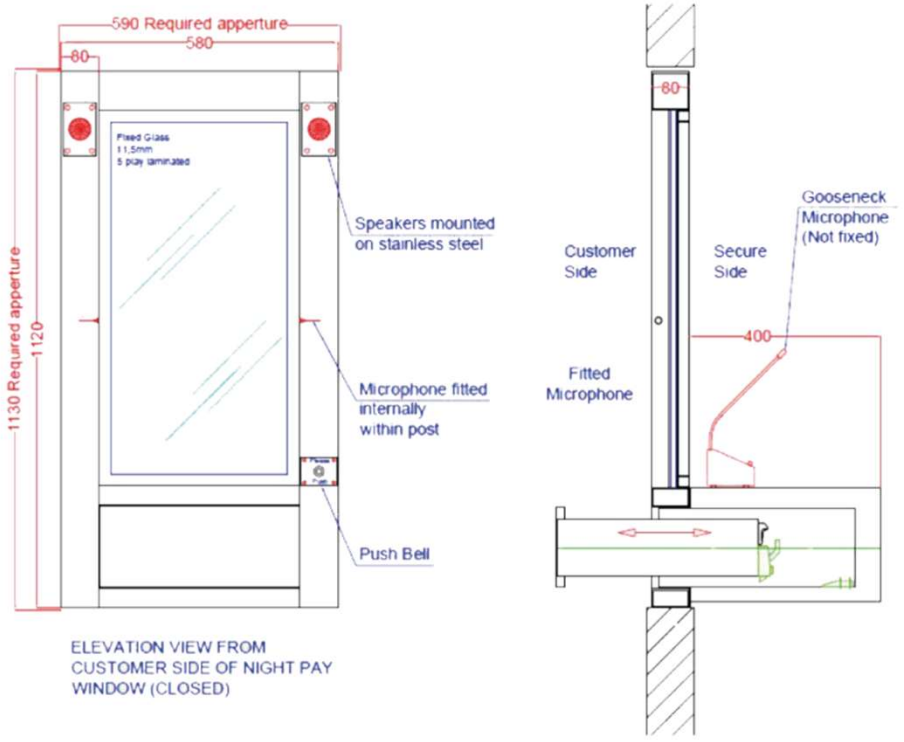

The window is available only as a standard width but non-standard bespoke glazed height screens and side fixed panels are available.

It is recommended that the unit be installed under a canopy.
